

# Seminar

## Opportunities for Thermoplastic Composite Materials

23<sup>rd</sup> September 2010, Chesterfield, UK

The aim of this seminar is to provide a forum to showcase new developments in materials, processing and design for thermoplastic composite materials, identify key advances, and highlight technology gaps that require further research investment. The event will be of interest to those involved with high performance thermoplastics generally or thermoplastic composite materials specifically.

### Programme

|       |  |
